

## **Looking for American Indians/Alaska Natives (AI/AN) to Appear in and Ad Campaign about the Health Effects of Smoking- Pays \$2,500!**

**Do you have chronic bronchitis, emphysema, or diabetes?**

**Have you had a heart attack or asthma attack due to exposure to cigarette smoke?**

We are looking for AI/AN people who are willing to share their stories about how smoking commercial tobacco has changed their lives. We are not looking for actors – we are looking for REAL people.

### **We are seeking men and women:**

- Who have suffered a **heart attack** due to exposure to secondhand smoke
- Who have symptomatic **COPD** including chronic bronchitis or emphysema (i.e., marked by restriction in activities or home oxygen), due to their own smoking
- Who have **diabetes (either Type I or Type II)**, and who've suffered health problems as a result of their continued smoking. This could include amputation of limbs, kidney failure, vision impairment or blindness
- Who have had a serious **asthma attack** triggered by exposure to secondhand smoke
- Who have used proven strategies to successfully **quit smoking** (such as setting a quit date, working with their healthcare provider, removing ash trays and cigarettes from their environment or using an approved medication), and have a compelling story to tell about how they quit

### **We are also looking to recruit people who are:**

- Military veterans
- GLBT
- Asian Americans
- African Americans
- Spanish-speaking Hispanics
- Caucasians/Whites

### **In order to qualify for this project, you must be:**

- A nonsmoker or have been commercial tobacco-free for at least 6 months
- Willing to have a doctor sign a legal statement saying tobacco caused and/or contributed to your health condition
- Able to travel for filming in October 2012

**We need your response immediately. Please call or email:**
